You should get full knowledge and understanding of the relevant risks of Financial Products transactions, and have capability of taking such risks. Before opening an account, you should make an objective judgment and discretionary decision on the investment object and investment amount to be traded from the standpoint of a rational man based on your economic strength, source of fund and risk tolerance.
- 1.7 The directors, employees and agents of DFAL and our related parties do not fully ensure the authenticity, sufficiency, timeliness, reliability, completeness and

effectiveness of the information relating to Financial Products in any explicit or implied way. All the information, data and materials provided by DFAL are only for reference.
